

Dear friends from Lachanipalli:

We are the students from Santa Magdalena Sofia, we are glad to send you this letter and also this material we have made for you.

In our school we've got got children from 3 to 16 years old.

The school is located in Palma, the capital of Mallorca (Balearic Islands, Spain).

Every class has made an activity for the project "School to School".

The very young students have taken some photos about their breakfast, lunch and diner.

The children from 6-7 years old have made a collection of greetings.

Boys and girls that are 8-9 years old have written about "ours meals".

In 3rd of primary they have drawn pictograms and in 4th they have designed a Telugu-Spanish dictionary.

In 5th of pimary they have talked about differences in prices between Spain and India and boys and girls from 6th (11-12 years old) have talked about clothes they wear.

We all hope you like what we have done. We did it with lots of affection for you.

We wish you are all right,

Greetings from Santa Magdalena Sofia.
